

Vocabulary Instructional Routine: Multiple Meaning Words in Context

Preparation/Materials: two multiple meaning words that have one definition for each word that is familiar to students (e.g., pool), sentences, chart paper or white board, highlighter or marker

2

- *Italicized sentences are what the teacher does*
- **Bold type is what the teacher says**
- Regular type is what the student(s) say
- **Bullet (•) and bolded type are what the teacher and student(s) say in unison**
- Teacher or student slides finger under underlined letter(s) or word(s)

TEACHER EXPLAINS TASK

We will use context clues to identify the correct meaning of words in sentences. A context clue is like a hint that the author gives us to figure out the meaning of the word.

TEACHER MODELS TASK

Write pool on the chart paper or a white board.

This is the word pool. Say pool.

- pool

You may already know a meaning for the word pool. Let's describe a pool. *Accept all relevant answers that describe one definition of pool (e.g., a place you can swim, filled with water or a game on a table, played with sticks and balls). Create and write a student-friendly definition on the chart paper or white board (e.g., A pool is a place or area of water). Read the definition aloud.*

A pool is a place or area of water.

Listen to a sentence using this meaning of pool. I jumped into the deep end of the pool to go swimming.

The word pool has another meaning. Pool can also mean to put together to be shared.

Listen to this sentence using this meaning of pool. My brother and I will pool our money to buy the video game.

Can you think of a time when you decided to pool money or pool something so you would have more? Tell us about it. *Accept all relevant answers and limit discussion to two minutes.*

So, pool can mean a place or area of water or it can mean to put together for a common purpose.

There are several meanings for the word pool. Now that I know two different meanings for pool, I can use context clues to figure out the correct meaning of that word in a sentence. Context clues are the words or phrases in or near a sentence that give us hints. These hints help us to find the correct meaning of a word in a sentence.

Write the sentence on chart paper or white board.

Listen and follow along as I read this sentence aloud. *Point to each word as you read the sentence.*

The wading pool is shallow so my little brother can sit and play in the water.

To figure out which meaning of the word pool is used in the sentence, I look for hints about the meaning of pool. I ask myself, what is happening in the sentence?

The person is describing a place where her little brother can sit and play in the water.

Highlight or underline words or phrases that provide hints as you speak about them.

The phrase, 'sit and play in the water' gives me a hint to figure out the meaning of pool in this sentence. Pool refers to a place or area of water. The meaning of pool in this sentence is not to put together for a common purpose.

I used context clues to identify the correct meaning of the word pool.

TEACHER AND STUDENTS PRACTICE TASK TOGETHER

Now, let's use context clues to identify the correct meaning of a new word in a sentence.

Here's one last question. Remember to use the word **cast** or **pool** in your response. Imagine your friend has many marbles. If you needed more marbles to play a game, what would you say to your friend so he would put his marbles together with yours?

INDEPENDENT PRACTICE

When students are consistently able to determine which meaning of the multiple meaning word is used, provide individual turns using other multiple meaning words. Call on students in an unpredictable order, calling more frequently on students who made errors.

SCAFFOLDING SUGGESTION FOR ERRORS

Verify that students are correctly identifying the meaning of the multiple meaning word in context and are able to use those multiple meaning words appropriately. If students experience difficulty with this concept, use one word for the entire instructional routine and if necessary, use a word with two familiar definitions (e.g., bark- The outer covering on a tree. The sound a dog makes). Adjust or reword the questions if the students are not able to provide the expected response.

EMPOWERING TEACHERS

Adaptations using this Instructional Routine:

- Introduce a third meaning of a vocabulary word during Teacher Models Task (e.g., pool-a game using a stick called a cue that is used to hit colored balls into holes on a special table).
- Create riddles or silly sentences with multiple meaning words that have been taught and have students use the context to determine and explain the different meanings (e.g., I touched the palm (a type of tropical tree) with my palm (flat surface of my hand)).
- Have students create a story incorporating multiple meaning words to demonstrate their understanding of the different meanings.

For further independent practice refer to the following Second and Third Grade FCRR Student Center Activities at http://www.fcrr.org/Curriculum/PDF/G2-3/2-3Vocab_1.pdf
