

Objective

The student will gain speed and accuracy in reading affixes.

Materials

- ▶ Affix Zip practice sheets (Activity Master F.007.AM1a - F.007.AM1d)
*These sheets consist of common prefixes and suffixes.
Select target practice sheet (i.e., prefix, suffix).
Make two copies of each sheet and laminate.
It is suggested that when timing, students say only one sound per affix.*
- ▶ Affixes correct per minute record (Activity Master F.007.AM4)
- ▶ Timer (e.g., digital)
- ▶ Vis-à-Vis® markers
- ▶ Pencils

Activity

Students quickly read affixes by doing timed practices.

1. Place two copies of the target affix zip practice sheet(s) and timer at the center. Provide each student with an affixes correct per minute record.
2. Taking turns, students practice reading the affixes aloud to each other.
3. Student one sets the timer for one minute and tells student two to “begin.”
4. Student two reads across the page while student one follows on his copy and uses a Vis-à-Vis® marker to mark any affixes that are read incorrectly. If all the affixes on the sheet are read, go back to the top and continue reading.
5. When the timer goes off, student one marks the last affix read. Counts the number of affixes read correctly.
6. Student two records the number of affixes read correctly on his record.
7. Repeat the activity at least two more times attempting to increase speed and accuracy.
8. Reverse roles.
9. Teacher evaluation

Extensions and Adaptations

- ▶ Use mixed affix practice sheet (Activity Master F.007.AM2).
- ▶ Use affixes and words practice sheets (Activity Master F.007.AM3a - F.007.AM3b).

Fluency

Common Syllables

F.CS.001

This list is comprised of 337 common syllables found in the 5,000 most frequent English words. 100 are non-word syllables and can be found in card format with activity F.004.

The remaining 237 can be found in card format following this listing. Some of these 237 syllables may actually be words. However, for these activities, they are intended to be used as syllables. For example, the letters “t-r-y” spell the word “try,” but they also represent the second syllable in the word “coun-try.”

Furthermore, there are instances when a syllable will have more than one pronunciation. The syllable “dy” can be pronounced /dē/ as in candy, or /dī/ as in “dynamite.” In addition, all syllables ending with a vowel are pronounced with a long vowel sound (e.g., “t-a” is pronounced /tā/).

It is up to the judgment and expertise of the teacher regarding how and when to introduce the syllables in the classroom as well as how to pronounce them during the activities. It is suggested, however, that during timings only one pronunciation be required.
